Summary

Artificial Intelligence and Data Science undergraduate with practical experience in full-stack development, mobile application development, data analytics, and machine learning. Built real-world software solutions using React Native, React.js, Firebase, Python, and Power BI through academic and client projects. Strong problem-solving skills with a passion for developing scalable, user-focused applications.

Education

PSV College of Engineering and Technology
B.Tech in Artificial Intelligence and Data Science(Pursuing)

Graduation - 2027
CGPA - 8.4/10

Experience

Data Analytics Intern

2024

NSIC

On-site

– Completed a hands-on data analytics course covering data cleaning, visualization, and dashboarding using Excel and Power BI.

Application Developer

May 2026 – June 2026

Santhosh Lifestyle

– Designed and developed a customized business application that streamlined billing and customer operations.

Projects

VASTRA – Fashion Mobile Application | *React Native, Firebase* | GitHub

- Developed a cross-platform mobile application for a fashion retail business using React Native and Firebase.
- Implemented authentication, product catalog, order tracking, and cloud database integration.

Real-Time Hand Gesture Recognition System | *Python, OpenCV* | GitHub

- Built a computer vision system capable of recognizing hand gestures in real time.
- Optimized detection accuracy under varying lighting conditions while reducing inference latency.

Deep Fake Detection System | *Python, Deep Learning*

- Developed a CNN-based image classification model to identify manipulated media with improved preprocessing techniques.

Technical Skills

Programming Languages: Java, Python, JavaScript, TypeScript, SQL

Frameworks: React.js, React Native, Node.js

Databases: Firebase, MySQL

Developer Tools: Git, GitHub, VS Code, Figma

Data Analytics: Microsoft Power BI, Excel, Pandas

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Neural Networks, REST APIs

Certifications

- Microsoft Power BI Fundamentals
- Full Stack Web Development
- Data Analytics

Achievements

- Developed and delivered production-ready software solutions for real-world business requirements.
- Maintains 20+ public GitHub repositories covering full-stack development, mobile applications, machine learning, and data analytics.
- Participated in various Hackathons and built various working prototypes within 30 hours
